

The tables below compare two samples:

- Sample Primary is a sample of students in grades 4 and below, grade 5 and grade 6 and is used to represent families with at least one child of primary school age
- Sample Secondary is a sample of students in years 7, 8, 9, 10, 11 and 12 and is used to represent families with at least one child of secondary school age.

The data used in the tables below were taken from the 2008 CensusAtSchool Random Sampler. Each sample is taken from the postcode range 2000 - 2999 and consists of 50 students, both male and female.

Variation will occur between samples taken from the Random Sampler and you can expect data from each random sample to be different from any other sample.

	Number of students	
Source of money	Sample Primary	Sample Secondary
No	20	13
Yes - Allowance or Pocket Money	9	10
Yes - Paid work	3	17
Yes - Gift	2	2
Yes - Chores	9	2
Yes - Other	7	6
